CLAIMS

- (previously presented) A method comprising:
- 2 launching an application on a user system;
- 3 tracking usage of said application so as to generate usage data
- 4 on said user system;
- 5 accessing an update site from said user system:
- 6 transferring said usage data from said user system to said
- 7 update site:
- 8 said update site prioritizing updates for said application at least
- 9 in part as a function of said usage data; and
- 10 said update site presenting to a user a list of said updates as
- 11 prioritized in said prioritizing step.
 - 2. (canceled)
 - 1 3. (previously presented) A method as recited in Claim 1 wherein
 - 2 said user selects one or more of said updates for said application.
 - 1 4. (original) A method as recited in Claim 3 wherein said
- 2 selected ones of said updates are installed so as to modify said
- 3 application.
- (original) A method as recited in Claim 1 wherein further
- 2 development of said application is directed in part as a function of
- 3 said usage data.

- 1 6. (previously presented) A software program set on computer 2 readable media, said software program set comprising:
- a usage data evaluator for receiving and evaluating raw usage 3
- data provided by a user computer system regarding a version of a
- 5 software application installed thereon, said usage data evaluator
- 6 providing evaluated usage data;
- 7 an update prioritizer for prioritizing updates available for said
- 8 version at least in part as a function of said evaluated usage data;
- 9 and
- 10 a web interface for communicating with said user computer
- 11 system via a browser on said user system so as to present to a user
- of said user computer system a list of said updates as prioritized by 12
- 13 said prioritizer.

7. (canceled)

- 1 8. (previously presented) A software program set as recited in
- 2 Claim 6 wherein said web interface specifies, for at least some of
- 3 said updates, advantages over said version of said application.
- 9. (original) A software program set as recited in Claim 6 1
- 2 further comprising a usage-tracking module installed on said user
- 3 computer system.
- 1 10. (original) A software program set as recited in Claim 9
- wherein said usage-tracking module is integrated with said version
- 3 of said application.
